**PCN:** PCN115062

**Date:** June 10, 2011

**Subject:** Amendment to Cypress PCN #104987 (November 2010 Product Obsolescence Notification)

**To:** PCN ADMIN  
CYPRESS  
pcn\_adm@cypress.com

**Description of Change:**

Cypress is extending the Last Time Buy (LTB) and Last Time Ship (LTS) period, or re-instating in production, a select number of Non Volatile SRAM parts identified in PCN #104987 originally published in October 2010. These changes are expected to bring greater flexibility for customers from supply chain and product offering standpoints.

**Benefit of Change:**

On parts with LTB extensions, Cypress customers will benefit with a longer window of support before these parts eventually become obsolete. On parts that are being re-instated to production, customers will have the opportunity to continue to buy these products for current programs, but Cypress does not recommend these parts for new design programs.

Other than the changes described above all other aspects of PCN #104987 remain unchanged and in effect.

**Products with Extended LTB and LTS Period:**

The following list of Non Volatile SRAM products, previously identified in PCN #104987, will remain in an obsolescence cycle, but with an extension of 6 months to the LTB and LTS dates. Customers can disregard the LTB and LTS dates in PCN #104987 and use the LTB and LTS from the table below:
