With this Infineon Technologies AG Information Note we would like to inform you about the following

Change of packing method at all Amkor Technology Japan locations for legacy MCU products

On 16 April 2020, Infineon acquired Cypress.
We are now in the process of merging and consolidating our tools and processes for PCN, Information Notes, Errata and Product Discontinuance.
For further details, please visit our website:

<https://www.infineon.com/cms/en/about-infineon/company/cypress-acquisition/>

► **Products affected**

Please refer to attached affected product list [1848]

► **Detailed change information**

Subject Change of packing method from 2 pcs to 1 pc type for tray products and change of indicator from 1-point type to 3-points type for MCU products at all Amkor Technology Japan locations.

Reason To standardize product box design across Infineon and eliminate re-strapping activity in IFX Distribution Centers when a custom shipping label is attached to the MBB bag's surface.
For indicator at Amkor Technology Japan, it's standardization.

► **Product identification**

Traceability of product to wafer level, including wafer fabrication location, through the lot number marked on the package.

► **Impact of change**

Infineon recommends that customers take this opportunity to review these changes against current process in receiving and storage since the change will align to Infineon shipping standard as we will move our Finished Goods inventory to Infineon's Distribution Centers in Singapore and Shanghai respectively.

The New product box (inner box) design will be introduced effective May 16, 2022 and during transition both old and new product box may be shipped.
